

## Caplus-3: Computer Appreciation for Basic and Advanced Learning

By N Stephen

Createspace, United States, 2015. Paperback. Book Condition: New. 254 x 178 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Computer appreciation is the technology impart of understanding computer through learning and practicing the first-step of its composition, scope, and operations in ICT World. This is for basic, but for advanced, it is to support the computer application knowledge of the intermediate and advance computer users, who perform their daily activities with computer. By comparison, appreciation is different from application, which is the technical impart of understanding how to use application programs of computer through practices. Meaning that their key different is the ability to perform effectively in application via the knowledge gained from the appreciation. Following this point, the package of CAplus is to help users gain and improve in both appreciation and application. To achieve this point, the package is organized into CAplus-1, 2, 3, and 4 books. The CAplus-1 consists of section-one and two. The Section-One contains chapter one to five with topics on history of computer, the meaning, attributes and uses of computers, including the classifications of computer, common components basic operations of computer relatively. The Section-Two is titled building computer career, which comprises...
