Storey Publishing LLC. Paperback. Book Condition: new. BRAND NEW, The Ever Blooming Flower Garden: A Blueprint for Continuous Color, Lee Schneller, Author Lee Schneller developed her blueprint system when she began designing gardens professionally, and she has successfully applied it to more than 150 gardens. Now she brings her proven system to gardeners everywhere who continue to chase that elusive dream of perpetual bloom. Schneller's system is a wonder of organization and information - packed with checklists and questionnaires, planning equations and plant characteristics. Yet for all its wealth of information, gardeners of every level will find Schneller's techniques simple to use and her blueprints fun to customize. Readers choose from a list of 220 low-maintenance plants organized by bloom month and supported by a Flower Catalog with basic growing information and photos of all 220 plants. By following five simple steps (opposite page), readers develop a unique garden design featuring personally chosen plants that deliver height, color, and tons of blooms all season long. For added convenience, the completed planning chart also serves as a plant shopping list. Once the blueprint has been created, Schneller helps readers put the plan to work, offering advice on shopping, planting, and finally, enjoying and maintaining the garden.
