

Erythea, Vol. 8: A Journal of Botany, West American and General (Classic Reprint)

Filesize: 8.49 MB

Reviews

The book is great and fantastic. It is written in straightforward words and phrases rather than difficult to understand. You won't really feel monotony at any time of your respective time (that's what catalogues are for regarding should you question me).

(Payton Miller)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Erythea, Vol. 8: A Journal of Botany, West American and General The earliest botanical explorers in California, beginning with Haenke and Menzies (1791 to 1794) and coming down to the time of Nuttall and Hartweg (1835 to 1845), either gave little attention to the collection of *Carex* or the records of their work are inadequate. The great folio work, the *Reliquiae; Haenkeanae* of Presl, in which Haenke's California collections were described, does not record a single species of *Carex* from California. The indefatigable Douglas did not neglect *Carex*, but so far as the California supplement is concerned the order Cyperaceae is not mentioned in Hooker and Arnott's *Botany of the Beechey*. Bentham's *Plantae Hartwegianae* records two species as collected by Hartweg in the Sacramento valley. The decades since the American occupation of California may be divided into three periods: the early or gold-discovery-period (1848 to 1874), in which the influence of the Pacific Railroad-Surveys and the California Geological Survey predominated; the middle period from 1875 to 1899, when members of the California Academy of Sciences took the lead in collecting; and the period of the botanical departments of the universities, during which time university-activities became enlarged and stabilized, that is, from 1900 to the present time. During the gold-period resident botanists entered the field, and it is due to the exertions of these early explorers, that the knowledge of California Carices began to develop. Albert Kellogg, resident in the San Francisco bay region from 1849 until his death in 1887, devoted his leisure to the study and collection of the native flora. Among numerous other genera, *Carex* claimed his interest, and he...
