A very awesome book with perfect and lucid reasons. It really is basic but shocks within the 50 percent of the book. Its been designed in an exceptionally easy way and is particularly merely right after i finished reading this ebook where in fact changed me, change the way i think.

Countries with neither power, nor wealth can only be poor. In almost all the lectures I delivered on international development in universities, research centers and international organizations in Germany, I have always tried to sensitize people about the unfairness in the global economic system, which is causing poverty and underdevelopment in the world.
