Elsevier Science & Technology. Paperback. Book Condition: new. BRAND NEW, Profiling and Serial Crime: Theoretical and Practical Issues (3rd Revised edition), Wayne Petherick, The third edition of Profiling and Serial Crime illustrates the promise, purposes, and pitfalls of behavioral profiling in the investigation of serial crime, and provides a theoretical and practical foundation for students. Part one, on profiling, examines inductive and deductive reasoning, profiling methods (including geographic profiling), metacognition, expert evidence, and more. Part two examines serial crime in detail, including cyber-bullying, stalking, rape, murder, and arson. This edition has been thoroughly revised throughout to reflect the latest research in criminal profiling and serial crime. Specific updates include six all-new chapters, including serial harassment and cyber-bullying and the motivations of victim and offender, and two replacement chapters on serial rape and serial arson. It provides a theoretical and practical foundation for understanding the motivation and dynamics in a range of serial offenses. It includes ancillary online materials for instructors and students, including lecture slides, test bank and case studies. Numerous case examples show the real world uses of behavioral profiling in investigations.
