KANT AND CONTEMPORARY EPISTEMOLOGY THE WESTERN ONTARIO SERIES IN PHILOSOPHY OF SCIENCE

Springer. Hardcover. Book Condition: New. Hardcover. 379 pages. Dimensions: 8.9in. x 6.0in. x 1.2in. From the mid-1960s, after the important works by J. Hintikka, S. Krner, W. Sellars and P. F. Strawson, there has been a marked revival of Kantian epistemological thought. Against this background, featuring fruitful exchange between historical research and theoretical prospects, the main point of the book is the discussion of Kantian theory of scientific knowledge from the perspective of present-day analytical philosophy and philosophy of empirical and mathematical sciences. The main topics are the problem of a priori knowledge in logic, mathematics and physics, the distinction between analytic and synthetic judgments, the constitution of physical objectivity and the questions of realism and truth, the Kantian conception of time, causal laws and induction, the relations between Kantian epistemological thought, relativity theory, quantum theory and some recent developments of philosophy of science. The book is addressed to research workers, specialists and scholars in the fields of epistemology, philosophy of science and history of philosophy. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Hardcover.
